FINANCE INTERNSHIP – 3 MONTHS LOG SHEET

Name of Student: _____ Organization: Eduphoenix Solutions Internship Duration: 3 Months (90 Working Days)

S. No.	Date	Day / Week	Concept Learnt / Activity	Supervisor Signature
1		Week 1 – Day 1	Introduction to Financial Modeling: Overview of financial modeling concepts and their importance in financial analysis and decision-making.	
2		Week 1 – Day 2	Introduction to Financial Modeling: Introduction to Excel for financial modeling, including basic functions and formulas.	
3		Week 1 – Day 3	Introduction to Financial Modeling: Build basic financial models using income statements, balance sheets, and cash flow statements.	
4		Week 1 – Day 4	Introduction to Financial Modeling: Practice scenario analysis, sensitivity analysis, and forecasting in Excel.	
5		Week 1 – Day 5	Building Financial Statements: Understand balance sheets, including assets, liabilities, equity, and their role in analysis.	
6		Week 1 – Day 6	Building Financial Statements: Analyze income statements to assess profitability, revenue sources, and expenses.	
7		Week 2 – Day 1	Building Financial Statements: Create cash flow statements and track cash inflows and outflows.	
8		Week 2 – Day 2	Building Financial Statements: Interpret financial statements to evaluate financial health and performance.	
9		Week 2 – Day 3	Valuation Techniques: Study valuation methods such as market comparables, precedent transactions, and discounted cash flow.	
10		Week 2 – Day 4	Valuation Techniques: Perform comparable-company analysis to estimate value relative to industry peers.	
11		Week 2 – Day 5	Valuation Techniques: Conduct discounted cash flow (DCF) analysis to estimate present value of future cash flows.	
12		Week 2 – Day 6	Valuation Techniques: Explore real-options valuation and the role of flexibility in investment decisions.	
13		Week 3 – Day 1	Mergers and Acquisitions (M&A) Fundamentals: Understand M&A basics, types of deals, and strategic rationale.	
14		Week 3 – Day 2	Mergers and Acquisitions (M&A) Fundamentals: Review financial, legal, and operational due diligence for target companies.	
15		Week 3 – Day 3	Mergers and Acquisitions (M&A) Fundamentals: Study valuation methods used in M&A, including comparables, precedent transactions, and DCF.	
16		Week 3 – Day 4	Mergers and Acquisitions (M&A) Fundamentals: Explore post-merger integration strategies, challenges, and synergies.	
17		Week 3 – Day 5	Leveraged Buyouts (LBO) Modeling: Understand LBO structures and their use in private-equity transactions.	
18		Week 3 – Day 6	Leveraged Buyouts (LBO) Modeling: Practice LBO modeling, debt structuring, cash-flow projections, and equity-return analysis.	
19		Week 4 – Day 1	Leveraged Buyouts (LBO) Modeling: Study debt structuring and the role of leverage in acquisition financing.	
20		Week 4 – Day 2	Leveraged Buyouts (LBO) Modeling: Review LBO exit strategies, including sale, recapitalization, or IPO.	
21		Week 4 – Day 3	Financial Modeling for Project Finance: Understand project-finance fundamentals, cash flows, risks, and financing structures.	
22		Week 4 – Day 4	Financial Modeling for Project Finance: Build project cash-flow models to assess feasibility and profitability.	
23		Week 4 – Day 5	Financial Modeling for Project Finance: Evaluate and mitigate risks associated with project investments.	
24		Week 4 – Day 6	Financial Modeling for Project Finance: Use sensitivity analysis to assess how changing assumptions affect project outcomes.	
25		Week 5 – Day 1	Investment Banking Overview: Understand investment banks' roles in advisory services, capital raising, and M&A.	
26		Week 5 – Day 2	Investment Banking Overview: Explore capital markets and the initial public offering (IPO) process.	
27		Week 5 – Day 3	Investment Banking Overview: Compare debt and equity financing methods used by companies.	
28		Week 5 – Day 4	Investment Banking Overview: Develop investment pitches and client presentations based on financial analysis and recommendations.	
29		Week 5 – Day 5	Regulatory and Compliance Aspects: Review financial regulations, including SEC regulations, Sarbanes–Oxley, and other compliance requirements.	
30		Week 5 – Day 6	Regulatory and Compliance Aspects: Understand compliance and ethical finance, emphasizing transparency, integrity, and responsible conduct.	
31		Week 6 – Day 1	Excel and Financial Data Management: Practice spreadsheet formatting, cell references, formulas, and financial data organization.	
32		Week 6 – Day 2	Excel and Financial Data Management: Use SUM, AVERAGE, IF, SUMIF, and lookup functions on sample finance data.	
33		Week 6 – Day 3	Excel and Financial Data Management: Prepare a monthly expense tracker and categorize transactions.	
34		Week 6 – Day 4	Excel and Financial Data Management: Create charts to present revenue, expenses, and profit trends.	

S. No.	Date	Day / Week	Concept Learnt / Activity	Supervisor Signature
35		Week 6 – Day 5	Budgeting and Forecasting: Prepare an operating budget using sample revenue and expense assumptions.	
36		Week 6 – Day 6	Budgeting and Forecasting: Compare budgeted figures with actual results and calculate variances.	
37		Week 7 – Day 1	Budgeting and Forecasting: Prepare a basic revenue forecast using historical data and assumptions.	
38		Week 7 – Day 2	Budgeting and Forecasting: Conduct best-case, base-case, and worst-case scenario analysis.	
39		Week 7 – Day 3	Financial Ratio Analysis: Calculate liquidity ratios such as current ratio and quick ratio.	
40		Week 7 – Day 4	Financial Ratio Analysis: Calculate profitability ratios such as gross margin, operating margin, and net margin.	
41		Week 7 – Day 5	Financial Ratio Analysis: Review leverage and solvency ratios using sample financial statements.	
42		Week 7 – Day 6	Financial Ratio Analysis: Compare key financial ratios across two sample companies.	
43		Week 8 – Day 1	Working Capital Management: Study accounts receivable, accounts payable, and inventory cycles.	
44		Week 8 – Day 2	Working Capital Management: Calculate the working capital requirement from sample data.	
45		Week 8 – Day 3	Working Capital Management: Review cash-conversion-cycle components and their impact on liquidity.	
46		Week 8 – Day 4	Working Capital Management: Suggest practical ways to improve receivables collection and cash management.	
47		Week 8 – Day 5	Cost Accounting and Break-even Analysis: Classify fixed, variable, direct, and indirect costs.	
48		Week 8 – Day 6	Cost Accounting and Break-even Analysis: Calculate contribution margin and break-even point using sample figures.	
49		Week 9 – Day 1	Cost Accounting and Break-even Analysis: Prepare a simple cost sheet and determine total product cost.	
50		Week 9 – Day 2	Cost Accounting and Break-even Analysis: Analyze how cost changes affect profit and pricing decisions.	
51		Week 9 – Day 3	Accounting Fundamentals: Review the accounting equation and double-entry bookkeeping.	
52		Week 9 – Day 4	Accounting Fundamentals: Record sample transactions in journal entries and ledger accounts.	
53		Week 9 – Day 5	Accounting Fundamentals: Prepare a trial balance from sample ledger balances.	
54		Week 9 – Day 6	Accounting Fundamentals: Understand accruals, prepayments, depreciation, and adjusting entries.	
55		Week 10 – Day 1	Cash and Treasury Management: Prepare a cash budget and estimate short-term cash requirements.	
56		Week 10 – Day 2	Cash and Treasury Management: Reconcile a sample cash book with a bank statement.	
57		Week 10 – Day 3	Cash and Treasury Management: Review cash-management controls and authorization procedures.	
58		Week 10 – Day 4	Cash and Treasury Management: Identify cash-flow risks and propose mitigation measures.	
59		Week 10 – Day 5	Taxation and Financial Documentation: Review basic tax documentation and the importance of accurate records.	
60		Week 10 – Day 6	Taxation and Financial Documentation: Organize sample invoices, receipts, vouchers, and supporting documents.	
61		Week 11 – Day 1	Taxation and Financial Documentation: Study the purpose of tax deductions and statutory filing calendars.	
62		Week 11 – Day 2	Taxation and Financial Documentation: Check sample financial documents for completeness and consistency.	
63		Week 11 – Day 3	Audit and Internal Controls: Understand internal controls over payments, purchases, and reimbursements.	
64		Week 11 – Day 4	Audit and Internal Controls: Prepare a sample voucher-verification checklist.	
65		Week 11 – Day 5	Audit and Internal Controls: Identify common documentation errors and control weaknesses.	
66		Week 11 – Day 6	Audit and Internal Controls: Review audit trails and the importance of maintaining supporting evidence.	
67		Week 12 – Day 1	Investment Analysis: Compare risk and return across illustrative investment alternatives.	
68		Week 12 – Day 2	Investment Analysis: Calculate simple and compound returns using sample data.	
69		Week 12 – Day 3	Investment Analysis: Understand diversification and basic portfolio allocation concepts.	
70		Week 12 – Day 4	Investment Analysis: Prepare an investment comparison sheet with assumptions and limitations.	
71		Week 12 – Day 5	Corporate Finance: Review time value of money, present value, and future value.	

S. No.	Date	Day / Week	Concept Learnt / Activity	Supervisor Signature
72		Week 12 – Day 6	Corporate Finance: Calculate loan repayments and prepare an amortization schedule.	
73		Week 13 – Day 1	Corporate Finance: Compare financing alternatives using cost and repayment assumptions.	
74		Week 13 – Day 2	Corporate Finance: Review capital budgeting using payback period and NPV concepts.	
75		Week 13 – Day 3	Business Performance Reporting: Prepare a monthly profit-and-loss summary from sample data.	
76		Week 13 – Day 4	Business Performance Reporting: Create a concise financial dashboard using spreadsheet charts.	
77		Week 13 – Day 5	Business Performance Reporting: Write variance commentary explaining key financial movements.	
78		Week 13 – Day 6	Business Performance Reporting: Present financial findings and recommendations in a short report.	
79		Week 14 – Day 1	Financial Risk Management: Identify credit, liquidity, market, and operational financial risks.	
80		Week 14 – Day 2	Financial Risk Management: Prepare a simple risk register with likelihood and impact ratings.	
81		Week 14 – Day 3	Financial Risk Management: Review sensitivity of profit to changes in sales, costs, and interest rates.	
82		Week 14 – Day 4	Financial Risk Management: Recommend controls for common financial risks in a sample case.	
83		Week 14 – Day 5	Financial Research and Case Study: Collect and organize publicly available financial data for a sample company.	
84		Week 14 – Day 6	Financial Research and Case Study: Review a company’s annual report and identify key financial statements.	
85		Week 15 – Day 1	Financial Research and Case Study: Compare company performance across two periods using selected indicators.	
86		Week 15 – Day 2	Financial Research and Case Study: Prepare a short case analysis with findings supported by data.	
87		Week 15 – Day 3	Final Review and Internship Summary: Consolidate key learning from financial modeling, financial statements, and valuation.	
88		Week 15 – Day 4	Final Review and Internship Summary: Review spreadsheet workbooks and check formulas for consistency.	
89		Week 15 – Day 5	Final Review and Internship Summary: Compile sample financial analyses and supporting documentation.	
90		Week 15 – Day 6	Final Review and Internship Summary: Prepare a final learning summary and internship activity review.	

Total Number of Working Days: 90 Total Hours: _____

Declaration: It is declared that the student has completed the finance internship as per the above schedule.

Signature of Industry Guide / Authorized Signatory: _____ Date: _____

Seal of Organization: _____
