PHOENIX SOLUTIONS
LET'S SHINE TOGETHER

FULL STACK DEVELOPMENT 1 MONTH INTERN LOG SHEET

Session No.	Date	Topic	Key Activities	Signature
1		Introduction to Web & Client-Server Architecture	Understanding web evolution, HTTP/HTTPS, browsers, domain & hosting concepts	
2		HTML Fundamentals	Creating web page structure, forms, semantic elements	
3		CSS Fundamentals	Styling pages, box model, Flexbox, Grid	
4		Responsive Design	Media queries, mobile-first approach	
5		JavaScript Basics	Variables, data types, operators, control statements	
6		DOM Manipulation	Events, element selection, dynamic updates	
7		ES6 Concepts	Arrow functions, modules, promises, async/await	
8		Git & GitHub	Version control, branching, repository management	
9		React.js Introduction	Components, JSX, props, state	
10		React Hooks	useState, useEffect, component lifecycle	
11		Routing in React	React Router, navigation handling	
12		API Integration	Fetch/Axios, handling API responses	
13		UI/UX & Reusable Components	Component structuring, responsive UI	
14		Front-End Mini Project	Building a responsive React application	
15		Front-End Review & Assessment	Code review, debugging, performance basics	

Session No.	Date	Topic	Key Activities	Signature
16		Node.js Fundamentals	Runtime environment, npm, modules	
17		Express.js Framework	Routing, middleware, request & response handling	
18		RESTful API Development	CRUD operations, API structuring	
19		Authentication	JWT basics, password hashing	
20		Input Validation & Error Handling	Middleware validation techniques	
21		MongoDB Basics	Collections, documents, CRUD operations	
22		Mongoose Integration	Schema design, models, validation	
23		API & Database Integration	Connecting server to database	
24		Front-End & Back-End Integration	Token handling, data flow	
25		MVC Architecture	Folder structure, clean code practices	
26		Application Security	CORS, environment variables, rate limiting	
27		Testing Basics	API testing, unit testing fundamentals	
28		Performance & Debugging	Developer tools, server logs, optimization	
29		Cloud Deployment	Deployment using Vercel, CI/CD basics	
30		Final Full Stack Project	Complete application with authentication & deployment
