PHOENIX SOLUTIONS
LET'S SHINE TOGETHER

FULL STACK DEVELOPMENT 3 MONTHS INTERN LOG SHEET

Sl. No	Date	Activity / Work Done	Signature
1		Introduction to Web Development	
2		Evolution of Web (Static vs Dynamic)	
3		Web Development Career Paths	
4		Basics of Internet	
5		Client-Server Architecture	
6		HTTP Protocol	
7		HTTPS and Secure Communication	
8		Web Browsers and Working	
9		Domain and Hosting Concepts	
10		HTML Structure and Tags	
11		Semantic HTML Elements	
12		HTML Forms and Inputs	
13		CSS Basics and Selectors	
14		CSS Box Model	
15		Flexbox Concepts	
16		Grid Layout	
17		Responsive Design Basics	
18		Media Queries	
19		JavaScript Introduction	
20		Variables and Data Types	
21		Operators in JavaScript	
22		Conditional Statements	
23		Loops in JavaScript	
24		Git Fundamentals	
25		GitHub Workflow	
26		Branching and Merging	
27		JavaScript Functions	
28		Arrays in JavaScript	
29		Objects in JavaScript	
30		DOM Concepts	
31		DOM Manipulation	
32		Event Handling	
33		ES6 Introduction	
34		Arrow Functions	

35		Modules in JavaScript	
36		Promises in JavaScript	
37		Async/Await Concepts	
38		React.js Introduction	
39		React Components	
40		Props in React	
41		State in React	
42		React Hooks	
43		React Router Basics	
44		API Integration Basics	
45		Fetch and Axios	
46		API Response Handling	
47		UI/UX Basics	
48		Reusable Components	
49		Performance Basics (Frontend)	
50		Node.js Introduction	
51		Node.js Runtime	
52		NPM and Modules	
53		Express.js Introduction	
54		Routing in Express	
55		Middleware Concepts	
56		Request and Response Handling	
57		REST API Concepts	
58		CRUD Operations	
59		Authentication Basics	
60		Authorization Basics	
61		JWT Concepts	
62		Password Hashing	
63		Input Validation	
64		Error Handling	
65		Server Security Basics	
66		CORS Concepts	
67		Environment Variables	
68		Rate Limiting	
69		Database Basics	
70		SQL vs NoSQL	

71		MongoDB Introduction	
72		Collections and Documents	
73		CRUD in MongoDB	
74		Mongoose Basics	
75		Schema Design	
76		Models and Validation	
77		API and Database Integration	
78		Frontend-Backend Integration	
79		Token Handling Concepts	
80		Data Flow in Applications	
81		MVC Architecture	
82		Folder Structure	
83		Clean Code Principles	
84		Application Security Basics	
85		Testing Basics	
86		Performance Optimization	
87		Debugging Techniques	
88		Cloud Deployment Basics	
89		CI/CD Concepts	
90		Full Stack Application Flow
